Career Objective

UI/UX Designer and Frontend Developer with experience designing and developing responsive, user-focused websites and web applications. Skilled in creating intuitive user experiences, modern interfaces, and high-quality digital solutions that balance aesthetics, usability, and performance. Strong understanding of UI/UX principles, responsive design, accessibility, cross-browser compatibility, and frontend best practices. Proven ability to collaborate with cross-functional teams and deliver engaging digital experiences aligned with business objectives.

Education

- **Bachelor of Computer Application (2022)**
  Global College of IT, Management and Commerce
  Percentage- **71.59%.**
- **M.C.A (2024)**
  Cambridge Institute of Technology, Bangalore
  CGPA – **8.39**

Experience

UI/UX Designer — LearnTech Edu Solutions *Sep 2025 – Present*

- Led end-to-end UX design for web and mobile features — user research, journey mapping, wireframes, and interactive prototypes.
- Built responsive UI components and a mini design system in Figma, reducing dev time by ~30%.
- Collaborated with product managers and developers to ensure seamless design-to-development handoff.
- Improved accessibility (WCAG) compliance through semantic HTML and contrast optimization.
- Designed and developed new website themes and interactive sections using **HTML5, CSS3, Bootstrap 5, React.js, JavaScript, and GSAP**.
- Created engaging visuals and marketing UI assets in **Figma** and **Canva Pro**. **Live Projects:**

  ✓ **Keralastudy –** Designed and developed a fully responsive educational website with 23+ webpages using HTML5, CSS3, Bootstrap, JavaScript, and Figma. Focused on modern UI/UX, responsive layouts, and crossbrowser compatibility.
  ✓ **Topmbastudy –** Built and maintained a fully responsive educational website with multiple pages, featuring clean UI design, modern typography, and seamless performance across desktop, tablet, and mobile devices.

- ✓ **20+ Web Pages –** Designed and developed 10+ high-converting landing pages for educational and marketing campaigns using HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript, and Figma. Optimized user experience through effective CTA placement, responsive design, and visual consistency.

Frontend Developer — [Water Innovations/Freelance]

Jan-2025 to Sep-2025

- Developed responsive and visually engaging websites using **HTML5, CSS3, Bootstrap 5**, and **JavaScript**.
- Customized client themes and templates to meet branding and functional requirements.
- Designed and implemented **scroll-driven animations** using **GSAP** and **Scroll Trigger** to enhance interactivity and user engagement.
- Created visually appealing UI designs with modern layouts, typography, and color schemes aligned with client branding.
- Ensured **cross-browser compatibility** and **mobile responsiveness** across all screen sizes and devices.
- Collaborated with clients to translate business needs into design solutions, improving client satisfaction by **30%**.
- Deployed websites and performed **basic SEO optimization** to improve search engine visibility and rankings.

Technical Skills

Technical Skills: HTML5, CSS3, JavaScript, Bootstrap 5, Tailwind CSS, React-js, Responsive Web Design, PHP, CrossBrowser Compatibility, Mobile-First Development, GSAP, ScrollTrigger, AOS.js, Interactive UI Development, Scroll-Based Animations.

UI/UX & Design Tools: Figma, Figma-to-HTML Conversion, Wireframing, Prototyping, Design Systems, Modern UI Design, User Experience (UX) Principles, Canva Pro.

CMS & Frameworks: Winter CMS, Theme Customization, Content Management Systems.

Programming Languages: JavaScript, Python, PHP, Java, C, C++, Object-Oriented Programming (OOP).

Database Management: MySQL, Database Design, SQL Queries.

SEO & Analytics: Technical SEO, On-Page SEO, Off-Page SEO, Keyword Research, Google Analytics, Google Search Console, Website Performance Optimization.

AI Tools for UI/UX & Frontend Development: Figma AI, Framer AI, v0 by Vercel, Stitch AI, Lovable, ChatGPT, Claude AI, GitHub Copilot, Cursor AI.

Frontend Live Projects

1. AMCA Website (Custom Design + GSAP Animations)

- Developed a fully responsive website using HTML5, CSS3, and JavaScript.
- Implemented scroll-driven animations using **GSAP** and **Scroll Trigger** for smooth transitions and engaging content reveals.
- Focused on clean typography, layout hierarchy, and user interaction.

2. MSPLAST Website (Corporate Industrial Design)

- Built a modern industrial website with **responsive layout**, custom sections, and image-based content using **Bootstrap** and **Scroll Animations**.

- Integrated **GSAP animations** for heading reveals, parallax effects, and CTA transitions. Focused on mobile-first design and performance optimization.

3. Watches Website (Luxury UI/UX Design)

- Designed and developed a luxury-style watches site using **HTML, CSS, Tailwind CSS**, and JavaScript.
- Used **GSAP** for product showcase animations and horizontal scroll sections.
- Applied high-end visual design principles including **typography, hover effects**, and **section-based storytelling**.

Academic Projects

Speech Emotion Recognition Using Machine Learning | MCA Main Project | 2024

- Developed a machine learning model to analyze and classify human emotions from speech data.
- Trained and evaluated Artificial Neural Network (ANN) models for emotion recognition.
- Explored applications in customer service, healthcare, and AI-powered human-computer interaction.

Virtual Online Classroom | Internship Project | 2024

- Developed a user-friendly online learning platform for students and educators.
- Implemented features for virtual learning, content sharing, and communication.
- Focused on improving accessibility, usability, and overall learning experience.

Certificate

- The Joy of Computing Using Python– NPTEL
- Microsoft: Build a Natural Language processing solution with Azure AI Language
- Programming with Java – NPTEL
- Web Development [HTML, CSS and JavaScript]
- Udemy - JavaScript.
